

# *Airlift Clearance Authority Use of FACTS*

---

- Use of FACTS mandated for use of all DoD cargo
  - ATCMD Processing/Air Clearance Function is 3-part process:
    - Edits and Cost Calculation
    - Mobile Unit Routing Check
    - Determine Air Eligibility as defined by **SERVICE** challenge criteria or MAM (Movement Management) rules
  - For hazardous cargo, courtesy look at SDDG prior to air movement approval in FACTS
  - Service ACAs have authority to override routing exceptions to meet mission requirements while ensuring efficient, effective, & economic cargo movement; deviation requires justification
  - ACAs approves **NOT** prepares cargo for movement
-
